About Aesthetics Enrichment

Educator Judy Garcia spent the last several years as an international educator for a prominent skin care company. She traveled the United States and Alaska, Hong Kong, Malaysia, Korea and Canada teaching advanced aesthetics classes to aestheticians, cosmetologists and medical professionals. Judy is a licensed Aesthetician, an AIE Certified Clinical Aesthetician and a C.I.D.E.S.C.O. Diplomate.

During these years she has seen a growing need for aesthetic education that focuses on education and not product. Education that stems from actual day to day knowledge that comes directly from working as an aesthetician, thus *Aesthetics Enrichment* was born.

Our educational courses fill the need for continuing education and advanced clinical education for the licensed cosmetologist and aesthetician. And will provide the medical professional with an understanding of the aesthetics field.

Aesthetics Enrichment is here to provide you, the professional with the knowledge and tools needed to be successful in your aesthetics career.

ACNE CARE

Control This Condition

Acne is a common condition that effects most people some-time in their life. Acne is non-discriminatory when it comes to age or gender. The acne condition is not something that is cured, but it is a condition that can be controlled. Treating this skin condition is a commitment both for the aesthetician and the client. This course will help provide you with the tools to successfully manage the acne condition.

Course Topics:

- What is Acne?
- Acne in Teens and Adults
- Acne Lesions
- Acne Grades
- What Triggers Acne?
- Extraction Techniques
- Treatments and Home Care
- Is Rosacea the same as Acne?
- Medical Treatment for Acne
- Acne Equipment
- Record Keeping
- and More!

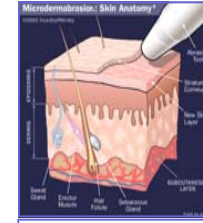

You will be able to help clients find the answers to controlling their acne condition using the knowledge and expertise obtained in attending our interactive based training program.

Non-Product Oriented Courses

Aesthetics Enrichment Courses are strictly education focused and are not tailored to any specific product line.

SKIN RESURFACING

Microdermabrasion & Chemical Peeling

Microdermabrasion is a popular skin resurfacing treatment that improves signs of aging and sun exposure. This non-invasive procedure can help dramatically improve your clients' skin.

Chemical peeling is an invasive form of skin resurfacing that helps minimize lines, wrinkles and skin discoloration. You will work with a variety of peel products to learn the difference between them and make a more informed decision for your clients.

Course Topics:

- Consultation
- Chemicals Used
- Aesthetic vs. Medical
- Combining Peels & Microdermabrasion
- Contraindications
- Equipment Selection
- Pre-Post Care
- Record Keeping
- Release Forms
- and More!

Learn to obtain dramatic results through combining chemical peeling and microdermabrasion. This is an excellent program for the new or advanced technician who wants to expand their current knowledge.

Important Notice

Some Programs may contain medical procedures or practices that are not appropriate or legal for an aesthetician to perform. These procedures or practices are shown to provide you with an informed understanding and in no way certify or license you in their practice.
